

# Save **GREEN** by *Going Green* with **Cope!**

**With over 20 years of experience in recycling industrial plastics, Cope can:**

- Create a partnership of sustainable social and environmental responsibility
- Help develop and establish additional company-wide “green” initiatives
- Alleviate public and governmental pressures to keep unused material out of landfills
- Provide tracking and reporting of your recycling achievements for internal and external promotion
- Deliver collection supplies and expertise to help eliminate barriers to success
- Present customized solutions that eliminate disposal costs, reduce bulk storage, and seamlessly integrate with your business processes

**We recycle 90% of the materials we sell – 2.7 million pounds of plastic in 2017!**

## COPE PLASTICS' ENVIRONMENTAL STATEMENT

Cope Plastics is committed to making the world a better place. This commitment involves partnering with suppliers, customers, and the community to minimize the negative environmental impact while increasing sustainability and green initiatives through innovation, education and social responsibility.
